Situated at the Time & Life building on Bruton Street in Mayfair, The Window is a communal art project that shares new and site-specific digital art projects by the world's leading artists, providing the public with a portal into the connective possibilities of virtual realities.

The Window was launched in May 2023 with a unique Data Sculpture by [Refik Anadol](#), who just headlined [#NVDIAGTC](#)

Most recently, The Window has also featured Lu Yang, [Sarah Meyohas](#) & [Universal Everything](#), with works by the brilliant artists Wang Shui and Petra Cortright to launch later this year.
